

# ROSCOE GOVAN

Bentonville, Arkansas 72712 | (210) 737-7047  
roscoe.govan.tech@outlook.com | www.linkedin.com/in/roscoegovan/

## SUMMARY

Cybersecurity analyst with enterprise experience in security operations, incident response, intrusion analysis, SIEM monitoring, log analysis, network traffic analysis, threat detection, root cause analysis, and remediation documentation. Background includes Walmart SOC experience investigating security events and prior network administration experience supporting routers, switches, firewalls, access controls, TCP/IP troubleshooting, patching, and infrastructure reliability. Certified in GCIH, Security+, CCNA, and Network+, with a strong foundation in security operations, network security, technical documentation, and cross-functional incident response. Open to relocation.

## CERTIFICATIONS & AWARDS

**GIAC Certified Incident Handler (GCIH)** | Cisco Certified Network Associate (CCNA) | CompTIA Security+ | CompTIA Network+ | Walmart Bravo Award | WGU Capstone Excellence Award | NSLS Advanced Leadership Certification | CISSP Certification in Progress

## TECHNICAL SKILLS

**Security Operations:** SIEM, EDR, Incident Response, Alert Triage, Security Event Investigation, Threat Detection, Threat Hunting, Log Analysis, Root Cause Analysis, Remediation Recommendations

**Security Tools:** Microsoft Sentinel, Microsoft Defender for Endpoint, KQL, Google Chronicle, Cortex XSOAR, Tanium, Microsoft Intune, Entra ID, Jamf Pro, FireEye, AirWatch, In-House Proprietary Tooling

**Network & Infrastructure Security:** Network Security, Network Traffic Analysis, Intrusion Analysis, Firewalls, VPNs, IAM, Access Controls, Active Directory, TCP/IP, Endpoint Security, Infrastructure Security

**Operations & Documentation:** ServiceNow, Jira, Runbooks, Playbooks, Technical Documentation, Case Documentation, Escalation Management, Cross-Functional Communication, Stakeholder Communication

## EXPERIENCE

### WALMART Intrusion Analyst II

Bentonville, Arkansas  
2024-2026

- Monitored and analyzed network traffic, security events, system logs, SIEM alerts, and intrusion detection data to triage, investigate, and respond to potential intrusions, threats, and vulnerabilities across Walmart's enterprise environment.
- Investigated and documented security incidents by validating alert context, recording findings and actions taken, performing root cause analysis, and providing remediation recommendations to strengthen enterprise security posture.
- Used intrusion detection systems, SIEM platforms, threat intelligence tools, and security monitoring workflows to identify malicious activity, enrich investigations, escalate confirmed concerns, and support timely incident response.
- Collaborated with cross-functional security teams to refine detection rules, tune alerting mechanisms, improve incident response procedures, and identify detection coverage gaps using post-incident lessons learned and MITRE ATT&CK trends.

### WALMART System Network Administrator

Bentonville, Arkansas  
2021-2024

- Maintained and administered enterprise network and systems infrastructure across Walmart operations, supporting routers, switches, firewalls, access controls, availability, security, and business continuity.
- Configured, monitored, and troubleshot network devices, connectivity issues, and infrastructure alerts to minimize downtime, restore service, and support reliable enterprise operations.
- Resolved escalated network and systems issues by analyzing technical symptoms, documenting troubleshooting actions, coordinating with cross-functional IT teams, and restoring service with minimal operational disruption.
- Supported network upgrades, infrastructure improvements, user access controls, system permissions, patching, backups, and operational documentation in alignment with corporate security and reliability standards.

### APEX SYSTEMS INC. Desktop Support Technician

San Antonio, Texas  
2021

- Provided technical support in a large-scale military healthcare environment by installing, upgrading, patching, configuring, and troubleshooting operating systems, applications, workstations, laptops, printers, peripherals, and network connectivity issues while maintaining compliance with DoD security policies and collaborating with network and systems administrators to minimize disruption to critical operations.

**ITC GROUP****San Antonio, Texas****Google Fiber Network Technician****2020-2021**

- Installed, maintained, and troubleshot Google Fiber network infrastructure by diagnosing outages, equipment failures, service disruptions, connectivity issues, and fiber optic cabling faults while documenting service activities, coordinating with dispatch and customers, and following operational, safety, and quality standards.

**HALLMARK UNIVERSITY****San Antonio, Texas****Cable Technician****2019-2020**

- Installed, maintained, tested, documented, and troubleshot structured cabling, coaxial, and fiber optic infrastructure across campus facilities while collaborating with IT and facilities teams, supporting technology upgrades, following safety and quality standards, and resolving connectivity issues to minimize downtime.

**EDUCATION**

Western Governors University, Salt Lake City, Utah | M.S., IT Management  
Hallmark University, San Antonio, Texas | B.S., Cybersecurity

**PROFESSIONAL AFFILIATIONS**

North Texas Information Systems Security Association (NTX-ISSA)  
National Society of Leadership & Success (NSLS)
